

SPECIAL OPERATIONS FORCES

Throughout our nation's history, Special Operators have been the tip of the spear — tackling the most difficult challenges, executing the most dangerous missions, and bearing the unseen burdens that accompany their duties.

Wounded Warrior Project® (WWP) invests in best-in-class partner organizations that augment our support for this elite force. These partners offer programs and services that provide individualized transition and employment counseling, enable lasting financial security, facilitate effective health and wellness interventions, and create meaningful connections with peers and families.
